

## Expertise + Applied Proficiency = Achieving Innovation through Simple & Conventional Solutions.

*SNF Resource Solutions* is a boutique healthcare management company serving skilled nursing facilities, transitional or post-acute hospitals.

Our specialty lies in the delivery of comprehensive healthcare management services through training and implementation of best practices and innovative model designs. We strive to ensure facility compliance and maximize revenue through efficient business operations.

But what fundamentally lies in the heart of the *SRS* mission is the drive to continuously promote and strive towards integrating simple business solutions with quality health care that is a source of hope, dignity and intrinsic value for the management and leadership of the facility we serve.

*SRS* is also particularly adept at developing customized health care solutions that provide resources in analysis, strategic development, security, and varying levels of access to information.

*SRS* has a large compliance auditing practice in which we review the facility's policies and procedures to adhere to state and federally mandated regulations. We have a rapidly growing network of revenue cycle and health information management professionals with expertise in: *accounts receivable billing & collections, credentialing, contracting, case management, MDS & Utilization, medical records, and coding.*

Put our services to the test, contact us for a free consultation ! today!

### BURIED IN PAPERWORK & INEFFICIENCY?

We recognize the important roles and functions of today's healthcare professionals in the administration and provision of quality patient care. We *also* know from first-hand experience how ever-increasing demands of the job take a toll on providers and administrators.

Call *SNF Resource Solutions* today and learn more about *our* comprehensive services and how to successfully integrate it with yours.
